15. CRM: Customers & Sales Pipeline Leads	Page 17
16. Reporting, Notifications, Settings & Security Audits	Page 18
17. Frequently Asked Questions (FAQ) & Troubleshooting	Page 19

1. Introduction & Core Concepts

GlobalDrop ERP is a comprehensive, multi-tenant enterprise resource planning portal engineered specifically for international e-commerce, warehousing, and cross-border retail dropshipping networks.

1.1. Key Operating Principles

- **Timezone Synchronization:** The business calendar is strictly linked to **UK London Time (`Europe/London`, GMT/BST)**. Punctuality, check-ins, and shift durations are evaluated uniformly against the UK business day.
- **Dual-Currency Accounting:** Executive leadership views financial data in British Pounds (**GBP £**), while branch supervisors and operations personnel operate in Indian Rupees (**INR ₹**).
- **Automated Stock Depletion:** When customer orders are submitted, inventory items are checked for stock availability and quantities are immediately deducted from on-hand warehouse inventory.
- **Persistent Fulfillment Checklists:** Warehouse and courier personnel can check off individual order line items as fulfilled. The checkmarks are saved locally in the browser so that refreshing the page or switching tabs does not erase packing progress.

2. System Access & Authentication Procedures

2.1. Accessing the System

1. Open Google Chrome, Mozilla Firefox, or Microsoft Edge.
2. Navigate to your ERP portal address (e.g. `http://localhost:5173` or your production domain).

2.2. Logging In

> **Step 1: Enter Credentials**
>
> Enter your corporate email address and assigned password. Click the eye icon (👁) to verify typed characters.

> **Step 2: Session Persistence**
>
> Check the **Remember me** box if you are on a private, secure computer.

> **Step 3: Verification & Dashboard Redirection**
>
> Click **Sign In**. The system authenticates your credentials via a 7-day cryptographic JSON Web Token and opens your role dashboard.

> **Built-in Offline Accounts (Testing & Demo Mode):**
> - Administrator: `veloraelise@gmail.com` (Password: `password123`)
> - Supervisor: `shalinishalu121997@gmail.com` (Password: `password123`)

2.3. Secure Logout

Always log out when completing your shift by clicking **Logout** at the bottom of the left sidebar or through the profile avatar dropdown. This clears your session token and triggers a secure logout entry in the system audit logs.

3. Role-Based Permission Matrix

Your access permissions determine which screens and actions are available:

Module	Admin	Supervisor	Employee	Functional Summary
Dashboard	Full Corporate (GBP £)	Branch Level (INR ₹)	Personal Work & Attendance	Role-tailored KPI widgets and graphs
Branches	Full Control	Read Only	No Access	Branch facilities and manager directory
Countries	Full Control	No Access	No Access	Sovereign operating territory parameters
Employees	Full Control	Branch Staff	No Access	Workforce directory and user creation
Attendance	Full Audit & Edit	Branch Audit & Clock-In	Personal Clock-In/Out	UK London time attendance tracking
Tasks	Assign & Review All	Assign Branch Tasks	View & Update My Tasks	Task assignments and progress sliders
Inventory	Full Control	Branch Stock	No Access	Warehouse catalog and automated stock deduction
Vendors	Full Control	No Access	No Access	Supplier directory and contact records
Finance	Full Control (GBP £)	Branch Ledger (INR ₹)	No Access	Income and expense double-entry ledger
Orders	Full Management	Branch Management	Assigned Orders & Delivery	Order pipeline, checklists, and invoices
Approval Center	Final Approver	Submitter & Reviewer	No Access	Fund requests and stock transfers
Customers	Full Control	Branch Customers	No Access	Customer contact directory
Leads (CRM)	Full Control	Branch Oversight	No Access	Inbound inquiries and deal pipeline
Settings / Audit	Full Control	No Access	No Access	Company profile and security audit logs

4. Navigation, Layout & Header Controls

4.1. The Sidebar Navigation

- **Desktop Screens:** The left sidebar remains visible for one-click access between modules. Active sections are highlighted with a blue indicator.
- **Mobile & Tablet Screens:** The sidebar slides out on demand by clicking the menu button (≡) in the top-left corner.
- **Role Filtering:** Links for modules outside your security tier are automatically omitted from view.

4.2. Top Navigation Bar Features

- **Global Search:** Instantly filters through orders, SKU products, and staff records.
- **Live UK Clock Pill:** Displays the live clock synchronized to **UK London Time (GMT/BST)**.
- **Notification Bell:** Displays an unread badge counter for alerts regarding assigned tasks, order status changes, and fund approvals.
- **Profile Avatar Menu:** Displays your active user name, role badge, and the sign-out trigger.

5. Role-Specific Dashboards

5.1. Admin Executive Dashboard

- **Accounting Currency:** Displayed in British Pounds (**GBP £**).
- **Executive KPI Cards:** Real-time counts of Total Countries, Active Branches, Total Personnel, Total Orders, Total Inventory Items, and Pending Authorizations.
- **Financial Balance Widget:** Live ledger reconciliation displaying Allocated Budget, Operating Expenses, Total Incomes, and Net Operating Balance.
- **Revenue Trajectory Graph:** Graphical month-over-month sales performance comparison.

5.2. Supervisor Branch Dashboard

- **Accounting Currency:** Displayed in Indian Rupees (**INR ₹**).
- **Branch Control Metrics:** Available Branch Operating Budget, Pending Expense Requisitions, Stock Requisitions, and Open Branch Tasks.
- **Efficiency Scorecard:** Branch task completion and order fulfillment percentage.

5.3. Employee Personal Dashboard

- **Daily Work Card:** Shows today's clock-in status, clock-in timestamp (UK Time), and total elapsed shift duration.
- **One-Click Clock-In / Out:** Direct button to clock in upon arrival or clock out upon shift completion.
- **Active Tasks:** Personal queue of tasks with completion progress sliders.

6. Branch & International Country Setup

6.1. Managing Corporate Branches

> **To Register a New Branch (Admin Only):**
>
> 1. Navigate to **Branches** from the sidebar.
> 2. Click **+ Add Branch**.
> 3. Enter Branch Title (e.g. `UK Distribution Hub`, `India Branch`).
> 4. Specify Country, Physical Street Address, Corporate Telephone, Email, and designated Branch Director.
> 5. Click **Save Branch**.

6.2. Setting Up Operating Countries

In the **Countries** module, Administrators establish regional definitions:

- **Country Name & Code:** Official name and ISO Alpha code (e.g. `United Kingdom / GB`, `India / IN`).
- **Regional Currency:** Official currency code (e.g. `GBP`, `INR`).
- **Timezone:** Standard IANA timezone string (e.g. `Europe/London`).

7. Staff Directory & User Account Provisioning

7.1. Onboarding a New Employee

Step-by-Step Onboarding (Admin & Supervisor):

1. Open **Employees** from the sidebar menu.
2. Click the **+ Add Employee** button.
3. Enter the employee's Full Name, Corporate Email (used as the login username), and Mobile Phone.
4. Select the security Role: `Admin`, `Supervisor`, or `Employee`.
5. Assign their physical Branch and Country location.
6. Set their Onboarding Date.
7. Enter their initial login password.
8. Click **Save Employee**.

Automatic Password Encryption: Passwords are encrypted before storage in the database using 10 rounds of salted bcrypt hashing. Plaintext passwords are never saved in the database.

7.2. Deactivating a Staff Member

If a staff member departs or is placed on leave, click the edit icon next to their profile, toggle their status to **Inactive**, and save. Inactive accounts are immediately prevented from logging into the portal.

8. Attendance Management (UK London Business Time)

All staff attendance is synchronized to the **United Kingdom (London / GMT-BST)** time standard, regardless of where staff are physically based.

8.1. Employee Daily Clock-In

Daily Clock-In Procedure:

1. Open **Attendance** or view the Clock-In card on the Employee Dashboard.
2. Review the live **UK (GMT/BST)** clock badge in the top bar.
3. Click the blue **Check-In** button.
4. **Punctuality Rule:**
   - Clocking in **at or before 09:00 AM UK Time** registers as **Present** (Green badge).
   - Clocking in **after 09:00 AM UK Time** automatically registers as **Late** (Yellow badge).

8.2. Daily Clock-Out & Hours Calculation

Shift Completion Procedure:

1. At the conclusion of your shift, return to **Attendance**.
2. Click **Check-Out**.
3. The system captures your UK departure time and automatically calculates your exact shift duration (e.g. `8h 15m`), displaying it in the **Hours** column.

8.3. Manual Supervisor Entries

Supervisors and Administrators can record attendance on behalf of employees by clicking the manual Check-In/Check-Out buttons, selecting the staff member from the dropdown, choosing the date, and confirming.

9. Task Allocation & Progress Tracking

9.1. Assigning Tasks

> **Creating a Work Assignment:**
>
> 1. Navigate to **Tasks**.
> 2. Click **+ Create Task**.
> 3. Specify Title, detailed assignment instructions, target Due Date, and Priority tier (`Low` , `Medium` , `High` , `Critical`).
> 4. Choose the assignee from active staff.
> 5. Click **Assign Task**. The assigned employee receives an immediate notification.

9.2. Updating Progress & Completion

Assigned staff can open any task and adjust the **Progress Slider** from 0% to 100%. Moving progress to 100% updates the task status to **Completed**, notifying the assigning supervisor.

10. Warehouse Inventory & Stock Depletion Rules

10.1. Product Health Indicators

- 🟢 **Available:** Healthy inventory levels (> 5 units on hand).
- 🟡 **Low Stock:** Critically low inventory (1 to 5 units). Requires reordering.
- 🔴 **Out of Stock:** 0 units on hand. Order creation for this item is blocked.

10.2. Adding a New Inventory Item

> **Adding Product Items:**
>
> 1. Navigate to **Inventory** and click **+ Add Product**.
> 2. Enter SKU (e.g. `SKU-BMB-001`), Product Name, Category, Acquisition Cost Price, and Selling Retail Price.
> 3. Specify on-hand Available Quantity and the designated Warehouse Branch.
> 4. Click **Save Product**.

10.3. Automated Stock Depletion Mechanism

> **Automated Stock Decrement:** Whenever an order containing inventory items is submitted, the backend verifies stock availability and immediately deducts the ordered unit counts from `availableQuantity`.

11. Vendor & Supplier Directory

Available to Administrators under **Vendors**:

1. Click **+ Add Vendor**.
2. Enter Supplier Corporate Name, Procurement Email, Telephone, Country of Operation, and Supplied Product SKUs.
3. Assign an initial Supplier Performance Rating (1 to 5 Stars).
4. Click **Save Vendor**.

Use this directory to quickly retrieve merchant contact channels for warehouse restocks.

12. Finance & Dual-Currency Bookkeeping

12.1. Dual-Currency Display

- **Executive Mode (Admin):** Financial balances and ledgers are displayed in British Pounds (**GBP £**).
- **Regional Mode (Supervisor):** Financial entries are displayed in Indian Rupees (**INR ₹**).

12.2. Recording Incomes & Expenses

Posting a Transaction:

1. Open **Finance** from the sidebar.
2. Click **+ Add Transaction**.
3. Select Entry Type:
   - **Income:** Customer payments, order deposits, wholesale receivables.
   - **Expense:** Courier postage, packing materials, utilities, staff wages.
4. Enter Amount, Account Category, Booking Date, Branch, and descriptive remarks.
5. Click **Record Transaction**. The dashboard immediately updates net profit margins.

13. Orders, Delivery Checklist & Invoicing

13.1. Order Processing Pipeline

Orders progress through four milestone stages:

- `Created` (Blue): Order logged and awaiting warehouse packaging.
- `Packed` (Yellow): Line items packed and boxed.
- `Dispatched` (Purple): Consignment handed over to courier.
- `Delivered` (Green): Order successfully received by the client.

13.2. Order Fulfillment Checklist (Item-by-Item Tracking)

> **Checking Off Delivered Products:**
>
> 1. Open **Orders** and click any order row to open its details modal.
> 2. Locate the **Order Products & Quantity** section.
> 3. As items are prepared, packed, or delivered, click the checkbox next to each product.
> 4. A green background and check mark confirm fulfillment.

> **Persistence Guarantee:** Item checkmarks are saved locally in browser storage (`localStorage`). Refreshing the page, closing the modal, or navigating to another section will not erase your checked items.

13.3. Customer Invoicing (`InvoiceModal`)

1. In the Orders table, click the document invoice icon (📄) on any order.
2. The formatted invoice displays company details, customer address, itemized charges, VAT rate, and net total.
3. Click **Print Invoice** to trigger your browser's print dialog (physical print or **Save as PDF**).

14. Approval Center (Fund Requests & Stock Transfers)

14.1. Fund Disbursement Requests

Workflow:

1. **Supervisor Submission:** Click **Request Funds**, enter amount, business purpose, and branch. Click Submit.
2. **Admin Audit:** Administrators review the pending queue and click **Approve** or **Reject** with comments.

14.2. Inter-Branch Stock Transfers

Workflow:

1. **Supervisor Requisition:** Click **Request Inventory**, select product, quantity, Source Branch, and Destination Branch.
2. **Admin Authorization:** Admin approves the transfer to initiate warehouse logistics movement.

15. CRM: Customers & Sales Pipeline Leads

15.1. Customer Directory (`/customers`)

Maintain client profiles including contact phone numbers, delivery addresses, and associated servicing branches.

15.2. Lead Generation Pipeline (`/leads`)

1. Click **+ Add Lead**.
2. Record lead source (Website, Social Media, Referral, Cold Call, Email), prospective deal value, and assign a sales representative.
3. Update deal stages: `New` → `Contacted` → `Qualified` → `Converted` (or `Lost`).

16. Reporting, Notifications, Settings & Security Audits

16.1. Financial Reports (`/reports`)

Filter transactions by custom calendar ranges to analyze gross revenue, total operational expenses, and net profit margins.

16.2. In-App Notifications (`/notifications`)

Click the notification bell icon to review alerts regarding new orders, task assignments, and approval decisions. Click **Mark all as read** to clear badges.

16.3. System Settings (`/settings`)

Administrators can update corporate address details, default invoice tax percentages, and base accounting currencies.

16.4. Security Audit Logs (`/audit-logs`)

Administrators can inspect forensic records of every system operation (user logins, check-ins, order updates) with timestamps and origin IP addresses.

17. Frequently Asked Questions (FAQ) & Troubleshooting

Q1: Why do some users see £ (GBP) while others see ₹ (INR)?

Answer: This is an intentional feature of GlobalDrop ERP's dual-currency architecture. Administrators manage executive corporate finances in British Pounds (`£` GBP), while regional Supervisors and Employees view operations in Indian Rupees (`₹` INR).

Q2: What timezone does the attendance system follow?

Answer: The system follows **UK London Time (`Europe/London` , GMT/BST)**. Regardless of your physical location, your clock-in and clock-out will be recorded against the official UK business calendar. Check-ins after 09:00 AM London time are automatically classified as `Late`.

Q3: Why did my product stock decrease automatically?

Answer: When an order is created, GlobalDrop ERP automatically decrements the ordered product quantities from your available inventory. If available stock reaches zero, the product status automatically shifts to `Out of Stock`.

Q4: Are product delivery checkmarks saved permanently?

Answer: Yes. Product checkmarks are saved in your browser's local storage (`localStorage`). They persist across page refreshes, tab changes, and modal reopens on that browser.

> **Support & Technical Assistance:** For corporate technical support, user account password resets, or system questions, contact your System Administrator.
